DETAILED ACTION

Response to Amendment

1. The amendment and Applicant's arguments filed 4/26/04 have been fully considered. However, upon further consideration, a new ground(s) of rejection is made in view of Machek (6,187,025).
2. Claims 1-27 are pending. Claims 6,11,12,15-20,26,27 are withdrawn as being directed to a non-elected species. Claims 1-5, 7-10, 13, 14, 24-25 are rejected in view of Machek as follow.

Drawings

3. The proposed drawings were received on 4/26/04. These drawings are approved. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because of the correction indicated in the proposed drawings filed 4/26/04. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-5,7-10, 13, 14, 21-25 are rejected under 35 U.S.C. 102(e) as being anticipated by Machek (6,187,025).

In regard to claims 1-5, 7-10,13, and 14, Machek discloses a system including: a guide wire (135), stop member (137), a filter device (110), a delivery enabling element comprising compressing elements having an engageable element (114) and an engaging element/inner tube (125). Wherein the engageable element includes tab members (117,119), retaining ring (118). Wherein the engaging element includes inner tube (125) having a plurality of slots (126) for receiving the plurality of tab members (117, 119).

In regard to claims 21-25, Machek disclose a system including all the structure limitations as claimed, which inherently carry out the step as claimed when in used (col. 7, line 29 to col. 8, line 62).

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
